MORE ROOM NEEDED.

PETERSBURG POST-OFFICE AND ITS NECESSITIES.

Congressman McKenney's Bill for Its Enlargement-A Modest Appropriation Asked-The New Catholic

PETERSBURG, VA., December 13 .pecial.)-Hon. W. R. McKenney, conssman from the Fourth District, yes terday, as reported, introduced a bill Congress for the appropriation of for the enlargement of the postoffice in this city. The fact is that a ch larger sum is needed for this pure, and that Mr. McKenney asked the lowest possible sum for the needd improvements. The business of the -office is conducted in a space of bout thirty square feet-a space that much too small for the convenient nsaction of an important office like that of Petersburg.

The object of the bill introduced by Mr. McKenney is to give the post-office au-thorities sufficient room for the proper transaction of the business of their office, which they have not at present.

which they have not at present.

In accordance with the suggestion and approval of a representative of the Architectural Department, recently sent here from Washington, the enlargement of the post-office to afford sufficient accommodations, is very much needed; and it is understood that the custodian of the building will recommend the proposed improvement as necessary.

To the credit of Mr. McKenney, who is one of the new members of Congress, but who will probably be one of the foremost of the Democratic leaders, it may be said that he has asked for a very moderate sum for a very needed improvement, in view of the fact that the government receipts from the city are so large as to more than justify such a small expenditure. Should the appropriation be granted the post-office enlargement would be made on the east side of the present building.

THE NEW CATHOLIC CHURCH.

THE NEW CATHOLIC CHURCH. It is hoped and expected that Cardinal libbons and Bishop Keane will be able officiate at the dedication of the new L. Joseph's Catholic church in this city to officiate at the dedication of the new St. Joseph's Catholic church in this city on the 22d-of this month; but, if they cannot attend, the dedication ceremonies will be postponed until some time in January. And, in this connection, it may be said that the beautiful altar (the main altar) erected in the church is the gift of the pastor, Rev. Father O'Farrell at a cost of over \$1.300. The new church is one of the most beautiful of the sacred edifices in our city.

About 1 o'clock, while on his way to dinner, he fell on the sidewalk, and almost immediately expired. It is supposed that he died of heart-disease, and an inquest was not deemed necessary.

FREDERICKSBURG. VA., December 13 .- (Special.)-The charity entertainment

13.--(Special.)—The charity entertainment which was given last night under the patronage of some of the most prominent people of the city. Was quite a success from a histrionic as well as a financial standpoint.

Two Fires in Fineastle.

FINCASTLE, VA.. December 12.—(Special.)—Our citizens were aroused yesterday morning at 6 o'clock by an alarm of fire. The fire was soon located at the residence of Dr. J. R. Godwin. The kitchen roof was in a blaze, but the flames fortunately had been discovered in time to prevent any more damage than that of burning a hole through the roof.

At the hour of 9 last night another alarm was heard, and the town was lit up by a big light. This time the fire was in a frame dwelling owned by a colored woman, and situated near the Western Hotel and just across the street from Mr. C. T. James's property. The building burned like tinder, and was totally consumed.

HOLDER'S DOUBLE CRIME.

Further Details of the Killing of Himself and Daughter.

A special from Leesburg gives the fol-lowing particulars of the shooting near that place Wednesday by Joseph Holder of himself and his stepdaughter: Holder, a not very successful veterinary Holder, a not very successful veterinary surgeon, lived with his wife and five children, the eldest, his stepdaughter, a girl about 13 years of age. About 9 o'clock in the morning the husband and father went in the house, and without the slightest provocation, so far as can be learned, drew a 38-culibre Smith & Wesson revolver and fired at his stepdaughter, the ball taking effect in the back of the head. A couple of negro men near by, hearing the shooting, rushed in the house, and told Holder he must stop that. Holder replied: "I will," and suiting the word, he sent a builet into his own breast, from the effects of which he died in a few minutes. The child lingered without regaining consciousness several hours, when she died.

The only thing calculated to throw any light upon the subject beyond what is given above was the testimony of Mrs. Holder, the mother of the murdered girl, who testified that her husband had been drinking pretty freely all the preceding evening, and when she remonstrated and asked why be was drinking so much his reply was that he was doing it to give him courage to carry out his designs, but gave no intimation of what that design was.

The Dry-Goods Market.

NEW YORK. December 13.—There is no room for complaint on the score of the weather prevailing just now, the conditions being just what are required to help along the reduction of stocks of seasonable goods in the hands of retailers, and to clear the way for a fuller recognition by them of probable requirements for spring.

In other respects the dry-goods market furnishes little from which manufacturers or their agents can draw any more encouragement than for some time past.

The tone of the primary market is unaitered in all directions, whether in cotton or in woollen goods.
